

Laksh Nijhawan

+91 70423-06233

[Portfolio](#) • [CodePersona](#) • [LinkedIn](#) • [GitHub](#) • [Email](#)

TECHNICAL SKILLS

Programming Languages	Python, C/C++, Java
Data Science & Machine Learning	Pandas, NumPy, scikit-learn, TensorFlow, Keras, XGBoost
Data Visualization	Matplotlib, Seaborn, Tableau
Tools & Platforms	Jupyter, Google Colab, Kaggle, Git, GitHub, AWS, Streamlit
Databases	MongoDB, SQLite
Development	MERN, Redux, HTML, CSS, Tailwind CSS, GSAP

PROJECTS

- **Clinical Notes Classifier ([Link](#))** - PyTorch, Hugging Face Transformers, scikit-learn, Pandas, NumPy
 - Fine-tuned **Bio_ClinicalBERT** for **multi-class classification** of clinical notes across **22 medical categories**, achieving **73% weighted F1-score** and **60% accuracy**.
 - Built **PyTorch data pipelines**, optimized **HuggingFace tokenization**, and evaluated using macro F1 and confusion matrix analysis.
- **ECG Arrhythmia Detection ([Link](#))** - Deep CNN, TensorFlow, Keras, scikit-learn, Pandas, NumPy
 - Achieved **99% training accuracy** and **98.5% validation accuracy** using a deep CNN over **20 epochs**.
 - Validated results using detailed **classification reports** and **confusion matrices** across arrhythmia classes.
- **SpaceX Falcon Landing Analysis ([Link](#))** - Seaborn, Lifelines, Folium, Pandas, Matplotlib
 - Analyzed **200+ Falcon 9 missions** using **survival analysis**, **Kaplan–Meier curves**, and **geospatial mapping** with live SpaceX API data.
 - Built a **rule-based landing estimator** and interactive maps to visualize **booster reuse patterns** and landing outcomes.

ACHIEVEMENTS

- **Built and launched [CodePersona](#)**, a developer profiling platform that converts a GitHub username into a **shareable live portfolio + downloadable PDF**, reaching **1,274+ unique users**, **2800+ page views**, across **78 countries** within **3 weeks**.
- Selected for the **McKinsey.org Forward Program 2025**, a global initiative by **McKinsey & Company** focused on leadership, problem-solving, and digital collaboration.

CERTIFICATIONS

Google – Data Analytics: Excel, Tableau, Kaggle, BigQuery with real-world datasets.
Infosys – Artificial Intelligence: AI fundamentals, machine learning, deep learning.

EXPERIENCE

- **IAmMaturity** Aug 2025 – Oct 2025
Front End Web Developer Intern *Remote*
 - Engineered **scalable frontend architectures** and production-grade UIs with seamless backend integration.
- **WriteCream** Jan 2025 – Apr 2025
Full Stack Web Developer Intern *Remote*
 - Delivered a production-ready web application with clean UI and AI integration for scalable full-stack solutions.

EDUCATION

- **Guru Gobind Singh Indraprastha University, New Delhi** July 2023 – July 2027
B.Tech in Artificial Intelligence and Data Science *CGPA: 8.75*
